

International Symposium on Tumor Biology in Kanazawa 2009

JSPS International Training Program(ITP) "Rearing of medical scientists and physician-scientists, who can develop cancer diagnosis and treatment Seminar"

金沢がん生物学国際シンポジウム2009

独立行政法人日本学術振興会「がんの診断・治療法の開発を担う医科学研究者の育成」セミナー

February 19, 2009

2009年2月19日(木) AM9:00~PM5:35

Museum of Kanazawa University School of Medicine

金沢大学医学部記念館

Taro Yamashita

Bolstering Hepatic Cancer Stem Cells by Wnt- β -catenin signaling

Hee-Jun Wee

PEBP2 β /CBF β -dependent phosphorylation of RUNX1 and p300 by HIPK2: Implications for leukemogenesis

Hyeyoung Kim

Ku degradation mechanism and signaling for cyclooxygenase-2 expression in *H. pylori*-infected gastric epithelial cells

Tohru Kiyono

An in vitro multi-step carcinogenesis model for HPV-associated human cancer

Makoto Nakanishi

Linkage of cellular stress to cell cycle progression

Shunichi Takeda

Analysis of Genome Maintenance Using Chemical Genetics

Toshiyasu Taniguchi

The Fanconi anemia-BRCA pathway and chemosensitivity of tumor cells.

Yoh Zen

Hepatocarcinogenesis from the aspect of progenitor cell markers

Hiroyuki Tsuchiya

Revolutionary impacts of caffeine-potentiated chemotherapy on osteosarcoma treatment

Seiji Yano

Novel gefitinib resistance mechanism and its therapeutic strategy for lung adenocarcinoma with EGF receptor activating mutations

Sun Jin Kim

Establishment of in vivo experimental models of human prostate cancer bone metastasis

Organizers: Cancer Research Institute, Kanazawa University
Kanazawa Association of Tumor Biologists

主催: 金沢大学がん研究所 金沢国際がん生物学研究会

共催: 北陸がんプロフェッショナル養成プログラム

(金沢大学、富山大学、福井大学、金沢医科大学、石川県立看護大学)

金沢大学大学院医学系研究科 金沢大学十全医学会

お問い合わせ: 金沢大学がん研究所総務第三係
〒920-0934 金沢市宝町13-1
