**Hiroko Oshima**

Associate Professor

**FOXO3, a latent tumor suppressor of gastric cancer**

14:05~14:30

**Gonghong Wei**

Professor

**Epigenome and cistrome-based understanding of cancer susceptibility**

14:30~14:55

**Kazuhiro Murakami**

Assistant Professor

**Cell context-dependent role of a stemness-relating transcription factor**

14:55~15:05

Break

### Session 2 Chair: Shenglin Huang

Fudan University Shanghai Cancer Research Institute

15:05~15:30

**Fei Chen**

Professor

**Mechanistic investigation of transcription and gene expression**

15:30~15:55

**Kohsuke Tsuchiya**

Associate Professor

**Pyroptosis, gasdermin-mediated regulated necrosis: mechanisms and roles in inflammatory responses**

15:55~16:20

**Yizhou Jiang**

Researcher, Associate chief physician

**Molecular subtyping and precision treatment of triple-negative breast cancer**

16:20~16:30

Closing Remark

Kunio Matsumoto, Director, Cancer Research Institute, Kanazawa University
